Red River

by farmers, for farmers

Built with pride, tested by time. I've had a lifelong passion for livestock handling. I will only build what I'd be happy to use on my own farm!
— Andrew Lynne, Owner

Family owned, Red River, **DESIGNS, BUILDS, DELIVERS, AND SETS UP**
Top quality, affordable stockyard solutions with safety, ease and satisfaction in mind.

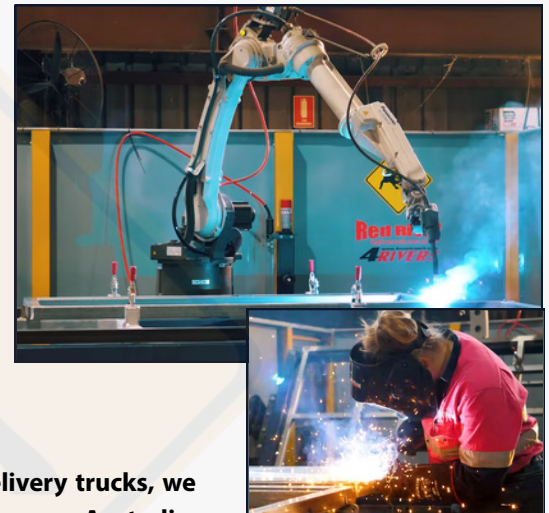

DESIGN

Red River provides standard designs that cater to herds of all sizes, from the hobby farmers to large commercial cattle operations. You can select from our standard packages, or we are delighted to create a customised design tailored to your needs.

BUILD

Red River employs robotic technology alongside manual welding and fabrication across its various manufacturing facilities. Every component is designed and manufactured with the safety of both operators and animals as a top priority.

DELIVER

With our dedicated fleet of delivery trucks, we can provide cattle systems across Australia, straight to your door.

SET UP

Red River has distinctly set itself apart by providing our customers with a delivery and setup service, ensuring peace of mind that your system is fully prepared and ready for use.

VET CRUSHES

RED STAR

Key features

- Standard chin bar
- Front & rear head bail operation
- Autolock rear slide gate
- Rump bar
- Heavy duty RHS frame
- Walk through head bail
- Heavy duty slam latches and striker plates

Optional extras available

HEAD BAIL

Key features

- Walk through head bail with heavy duty collar bars
- Front operation
- Galvanised construction
- Bisalloy locking mechanism
- Standard chin bar

Optional extras

- Rear operation
- Supply as head bail 'crush' with 2 cattle panels and autolock slide gate

Red River STOCKYARDS

CRUSH OPTIONS

BARN DOORS

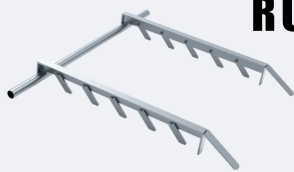

Key features

- Double barn-style doors
- Manual slam latches
- Improve operator safety with isolated access to front or rear quarters
- Super heavy duty galvanised construction

RUMP BAR

NEEDLE GATE

Key features

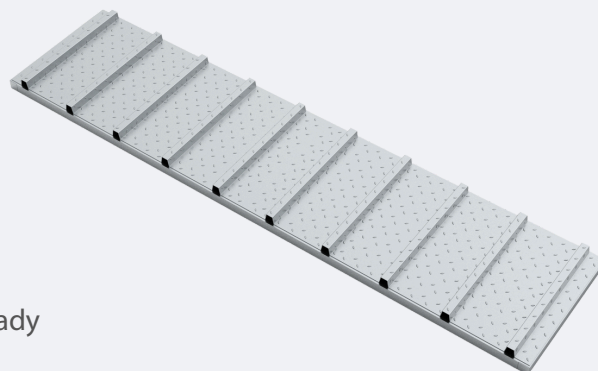

- Hinge-down centre brace
- Increase access to neck area
- Operator injury prevention

CRUSH FLOOR

Key features

- Anti-slip surface
- Hot dipped galvanised
- Available to suit any Red River crush
- Load bar foot plates make your crush scale ready

CRUSH HOOK

BAULK GATE

Key features

- Discourage stock running through the headbail
- Increase ease of catching

RUMP SQUEEZE

Key features

- One sided squeeze for cattle of all sizes
- Ratcheting lock mechanism

CHIN BARS

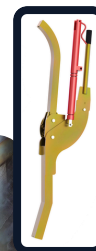

Standard chin bar:

Friction lock mechanism for chin restraint

Hydralock head holder:

Hydraulic assisted single person operation

Top and bottom restraint

BRISKET BAR

Key features

- Prevent cattle going down in the crush
- Removable for calves

LOADING RAMPS

LOAD MASTER Premium loading ramp available in rear or side load capability

REARLOAD

- 1800mm landing platform with reinforced frame
- 5500mm overall length
- Hi-vis tape drivers side
- Pivoting hardwood bumpstop

KEY FEATURES

WALKWAY

- 700mm (W) Right or left hand side walkway
- Non slip surface & handrail for operator safety
- Ladder access to operator landing & side doors
- Double slam latch side doors close off both ramp & truck

RAMP

- Super heavy duty galvanised RHS frame & rails
- 800mm internal width
- 1200mm fixed height landing platform
- High strength, non-slip anti-rot WPC floor
- Reinforcing cross bars
- Sheeted sides

Quality Guaranteed

5 Year Warranty

SIDELoad

- 2500mm landing platform with reinforced frame
- 6100mm overall length
- Adjustable front doors for side-loading

RED RIVER STOCKYARDS

HEIGHT ADJUSTABLE LOAD RAMPS

HEAVY DUTY

Key features

- Heavy duty galvanised RHS frame
- Full length anti-rot WPC composite floor
- 700mm (W) Right or left hand side walkway
- Height adjustable (winch assisted)
- Sheeted sides
- 3800mm overall length
- Hardwood bump stop

Suitable for sheep

STOCKMAN

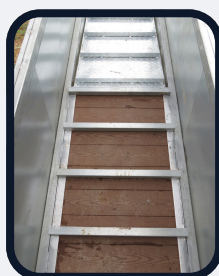

Key features

- Sheeted sides
- Fully welded, galvanised RHS frame
- Hot dipped galvanised steel floor (height adjustable section)
- Anti-rot WPC composite floor (fixed section)
- 3000mm overall length
- Height adjustable (manual)

Suitable for sheep

300mm **R** or **L** hand side walkway - optional extra

YARD PANELS & GATES

SUPER HEAVY DUTY (SHD) RANGE

Our cattle yards are an investment in safety, efficiency and longevity. With super heavy duty galvanised steel frames and rails, our top of the range SHD panels and gates are suited for all types of cattle. The strategic rail distribution also makes them suitable for **sheep & goats**.

SHD RANGE

Specifications

- 6 x oval anti-bruise rails (120mm x 42mm)
- Galvanised 2mm wall
- 60mm (OD) posts & frames
- All gates gusseted
- Welded caps & feet
- Unique tight lug system for reduced noise

Suitable for sheep

Panels

- Standard panel: 2150mm (L) x 1800mm (H)
- Short panel: 1850mm (L) x 1800mm (H)

Single gate & frame

- 2280mm (L) x 2500mm (H)
- Chain latch
- Double hinged for 360° swing

Slam gate & frame

- 2380mm (L) x 2500mm (H)
- 2-directional slam feature
- Robust slam latch

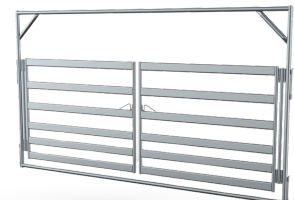

Personal access gate & frame

- 840mm (L) x 1970mm (H)
- Chain latch

Double gate & frame

- 4300mm (L) x 2500mm (H)
- Chain latch
- Double hinged for 360° swing

come to life

YARD PANELS & GATES

PREMIUM HEAVY DUTY (PHD) RANGE

Our PHD range offers a cost effective, yet robust solution for large stock management. Strength is maintained by virtue of the heavy duty steel construction.

PHD RANGE

Specifications

- 6 x oval anti-bruise rails (80mm x 40mm)
- Galvanised 2mm wall
- 60mm (OD) posts & frames
- All gates gusseted
- Welded caps & feet
- Unique tight lug system for reduced noise

Panels

- Standard panel: 2150mm (L) x 1800mm (H)
- Short panel: 1850mm (L) x 1800mm (H)

Slam gate & frame

- 2380mm (L) x 2500mm (H)
- 2-directional slam feature
- Robust slam latch

Single gate & frame

- 2380mm (L) x 2500mm (H)
- Chain latch
- Double hinged for 360° swing

Personal access gate & frame

- 840mm (L) x 1970mm (H)
- Chain latch

Sheeted panel

- Standard panel
- Galvanised sheeting

Sheeted gate

- Single gate & frame
- Galvanised sheeting

Double gate & frame

- 4300mm (L) x 2500mm (H)
- Chain latch
- Double hinged for 360° swing

YARD PANELS & GATES

BRONCO RANGE MOST ECONOMICAL WAY TO BUILD YOUR YARDS

With rounded anti-bruise rails, welded caps & feet and gusseted gate frames, you will still find some of our key features in the Bronco range. Robot welded construction, more streamline rails and a slightly thinner steel wall means that these panels are lighter and well suited to quieter cattle and horses.

SUITABLE FOR ROUND PENS AND ARENAS

BRONCO RANGE

Specifications

- 6 x oval anti-bruise rails (60mm x 30mm)
- Galvanised 1.6mm wall
- 50mm (OD) posts & frames
- All gates gusseted
- Welded caps & feet

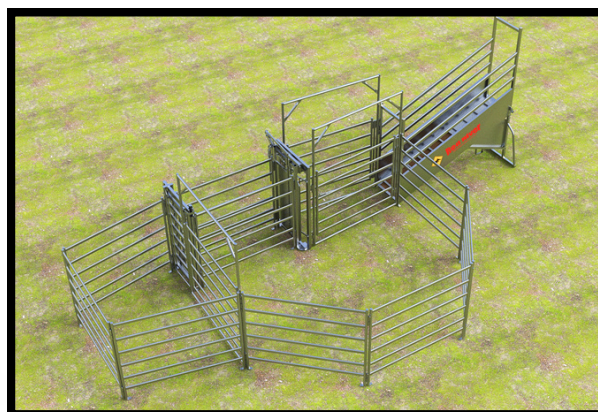

Single gate & frame

- 2300mm (L) x 2750mm (H)
- High clearance frame
- Chain latch
- Double hinged for 360° swing
- Unique tight lug system for reduced noise

Panels

- 2125mm (L) x 1800mm (H)

Did you know we also supply and install round yards in both our bronco & arena ranges?

ARENA RANGE

Owning your own arena is a fantastic way to enjoy time with friends or create a wonderful family activity. Our utility panels offer an economical solution for constructing an arena while ensuring both quality and integrity are upheld.

Panels

- 3000mm (L) x 1500mm (H)
- Rounded posts for knee safety
- 60mm x 30mm welded centre brace

Single gate & frame

- 2100mm (L) x 2800mm (H)
- High clearance frame
- Chain latch
- Single hinged

Specifications

- 5 x oval anti-bruise rails (60mm x 30mm)
- Galvanised 1.6mm wall
- All gates gusseted
- Welded caps & feet

AUTO LOCKING SLIDE GATE

Key features

- Easy glide race gate
- Secure autolock mechanism
- Heavy duty galvanised construction
- Single handed operation
- Compatible with SHD, PHD & Bronco panels
- Available in **740mm** or **800mm** width

RACE BOW

Key features

- Used to prevent spreading in the race
- Compatible with SHD, PHD & Bronco panels
- Available in **740mm** or **800mm** width
- Heavy duty galvanised frame (60mm OD)

STEP THRU GATE

Key features

- Self closing
- One directional
- Spring loaded

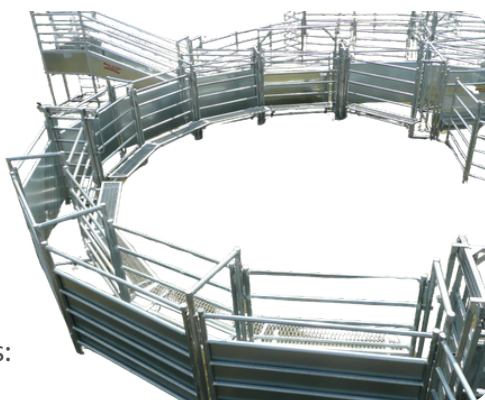

RACE WALKWAY

Key features

- Non-slip elevated walkway to improve operator visibility
- Compatible with any yard, race & external perimeter of G-Force
- Variable height
- Supplied in individual clip-on sections: **curved** or **straight**

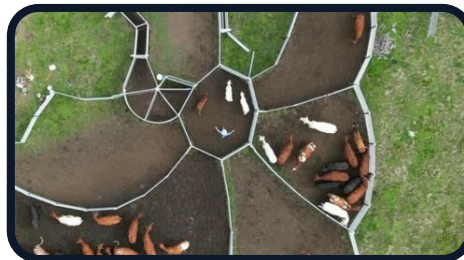

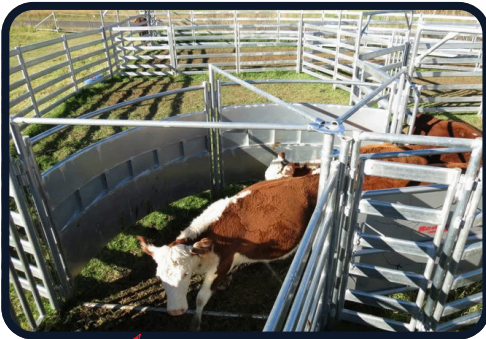

YARD UPGRADES

G-FORCE

The original circular force yard - built with safety in mind

WATCH NOW

Safety

Sheeted forcing gate separates animal from operator

Ratcheted side feature ensures locking as the gate is moved in the direction of the cattle flow

Clockwise or anticlockwise available

Anti-bruise design

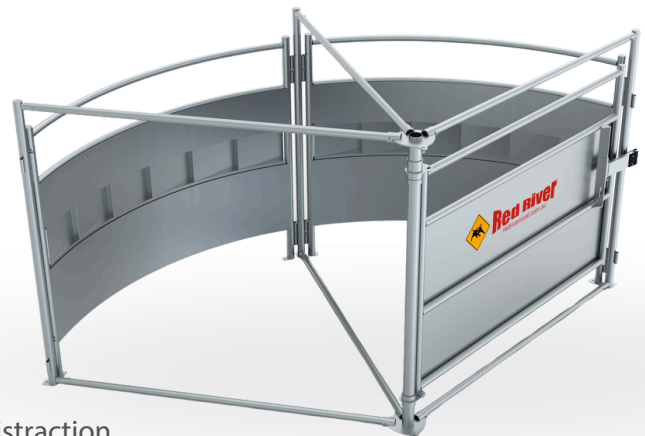

Easy to release spring loaded lock

Other key features

Fully sheeted construction improves flow by limiting distraction

2400mm radius

Heavy duty frame & tie bars

YARD UPGRADES

2400mm Sweep

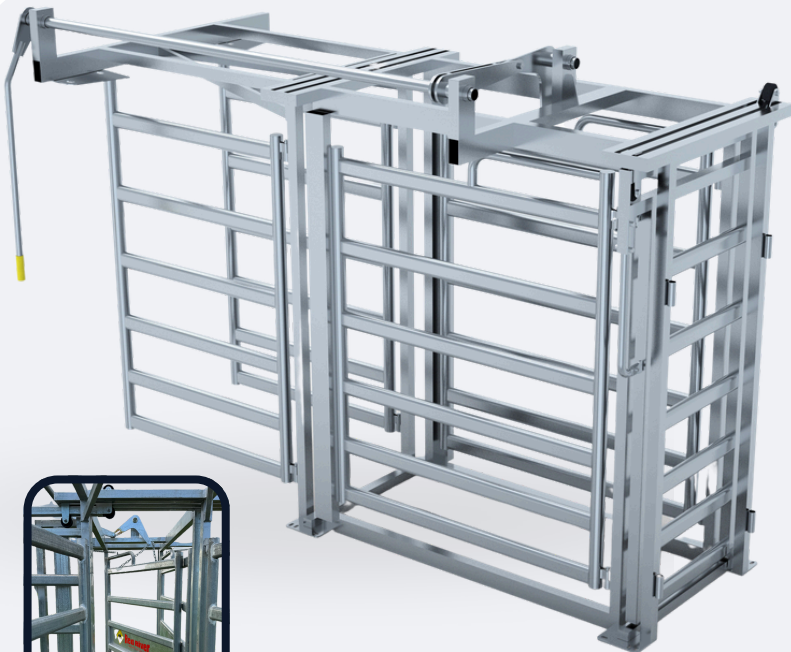

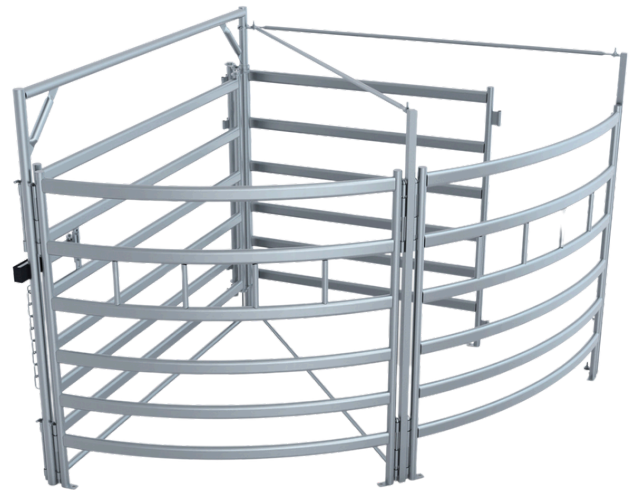

Enhanced Safety: The well-being of your livestock and handlers is our priority. Our sweeps are engineered to minimise stress on animals and reduce the risk of injury, making cattle handling safer for everyone involved.

ALLOWS FOR FASTER AND MORE ORGANISED MOVEMENT OF LIVESTOCK

Safety

- Ratcheted side feature ensures locking as the gate is moved in the direction of the cattle flow
- Clockwise or anticlockwise available
- Anti-bruise design
- Easy to release spring loaded lock

5-way Race Draft

Autolock slide gate (rear or mid placement)

2 x manually operated front drafting gates with slam latches

2 x lever operated, spring-loaded (self closing) rear drafting gates

Offside available

Galvanised Nearside construction

Available in Nearside and Offside*

Second autolock slide gate - **optional extra**

YARD UPGRADES

Weigh Box

- Galvanised construction
- Robust frame
- Form Ply for mounting panel reader
- Autolock slide gate
- Hot dipped galvanised floor

Calf Crush

- Heavy duty headbail
- Bisalloy ratchet
- Doors both sides
- Easy branding access
- Adjustable chin bar

Separate calf box section with offside rear cradle gate* & optional front slide - **optional extra**

* Nearside also available

Calf Race

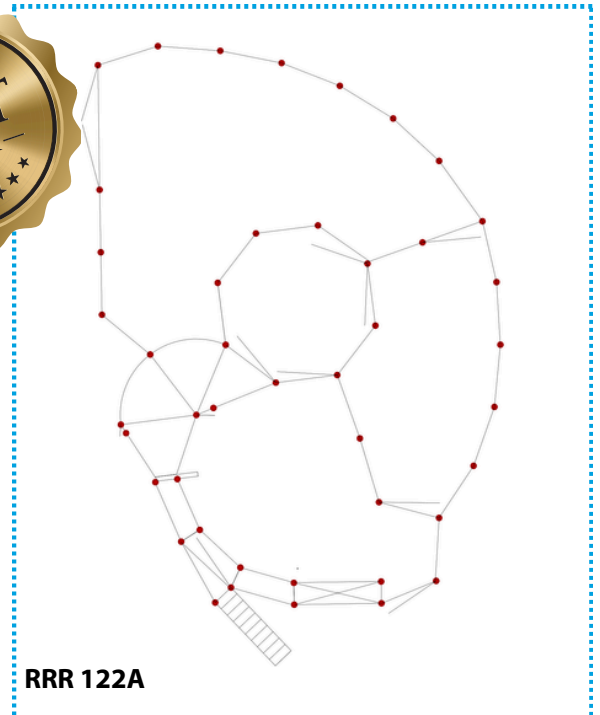

- Single 2100mm section
- Sheeted sides
- Front & rear slide gates

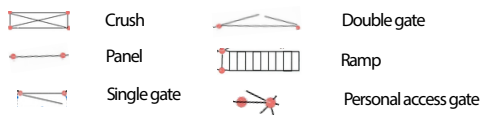

TRIED & TESTED YARD DESIGNS

Interpreting the designs

Computer generated 3D rendered drawings are a great way to get a 'feel' for how a yard will look and flow operationally. While you're still deciding on the ideal design, line drawings are often easier to interpret and make it simpler to compare the features of different yard layouts.

Key

Each yard design shows an estimation of its **holding capacity** as well as which elements are included. Designs can always be adjusted to suit your needs and orientation of your land.

Our designs are proven to have great flow, functionality and can grow with your herd. The addition of extra panels and gates allows you to incorporate more holding pens to increase flow and working capacity.

Package Deal Options **Ask about special pricing!**

Package Deals are a fantastic option we offer here at Red River Stockyards!

If you know you will need a new yard and crush, we've created packages made to suit every size and set up.

Simply let us know which design you're leaning towards - for example, if you like our RRR122A with a Red Diamond, this would be called our 122Premium package. From there, we'll put together the pricing for your complete package deal.

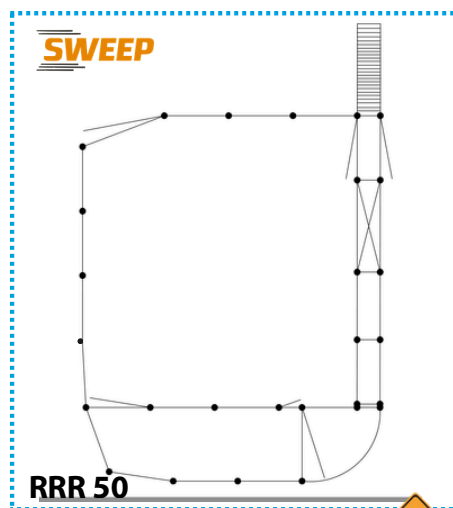

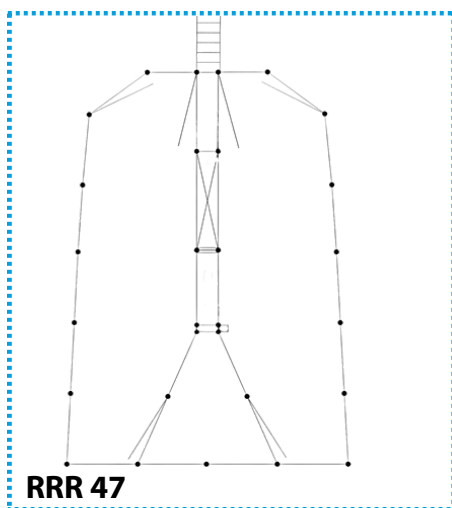

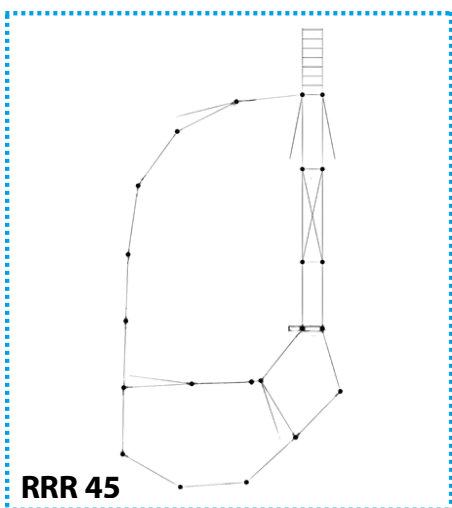

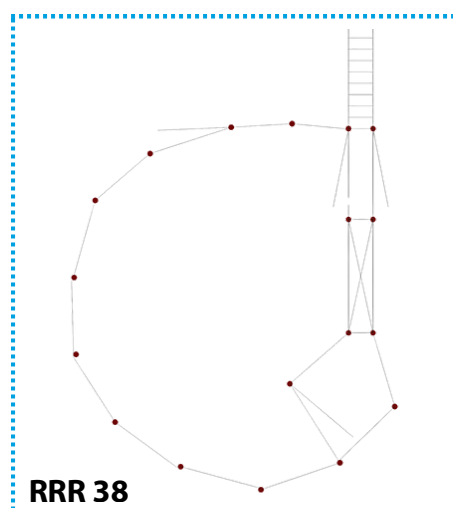

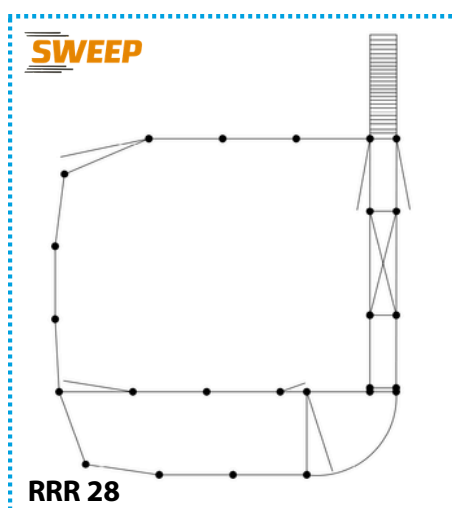

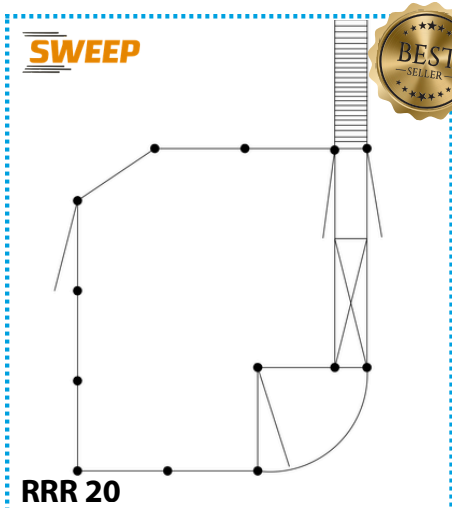

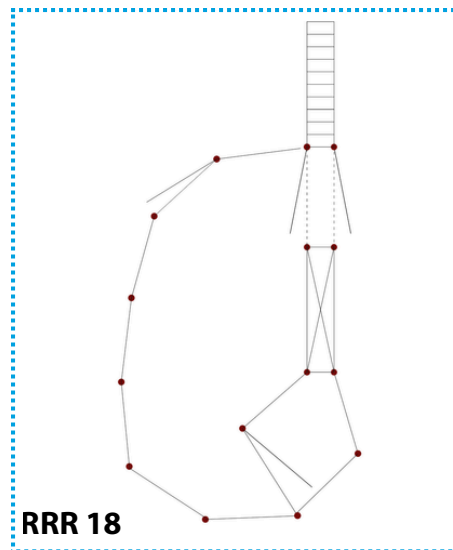

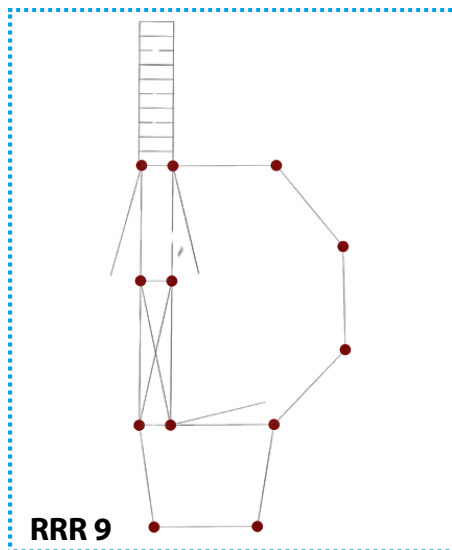

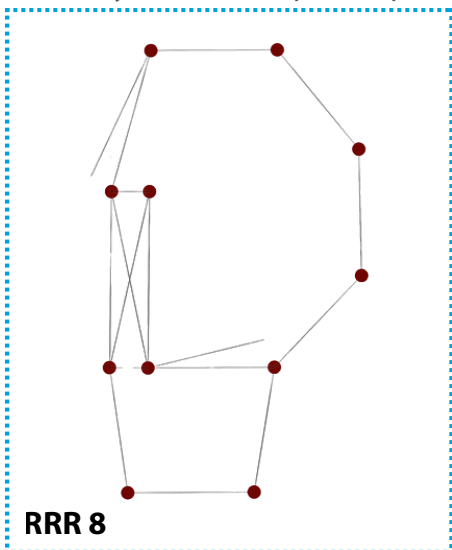

Paired with a crush, ramp, and panels of your choice, or we can recommend the best configuration to suit your needs.

Adding a race, drafting gates or Sweep allows single-handed management of your herds with veterinary, husbandry and/or transport requirements.

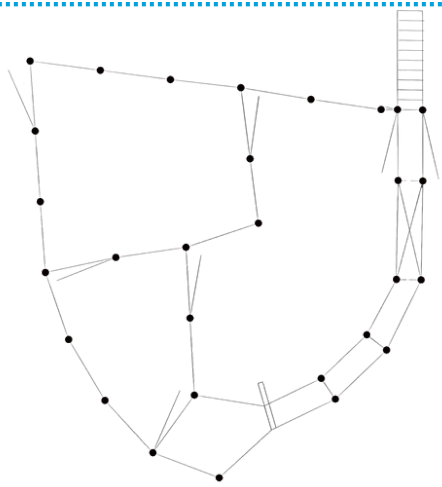

The Red Diamond and Stockman pairing offers a reliable and efficient solution for medium yard configurations.

**ALSO CAN BE USED
FOR POULTRY**

Ready to make it happen?

First, settle on a design

Our yard designs are named after their approximate **holding capacity**. The optimum **working capacity** is usually less.

Your easiest option is to select one of our tried and tested yard designs, targeted to your head count. You'll find a range of our most popular designs from p20.

Can't find exactly what you were hoping for?

Why not use the design pages on p27-28. Make note of which of our features you liked, what extra functionality you'd prefer or try your hand at drawing your ideal set up.

Then give one of our sales team a call. They would be happy to work with you on a custom design, generating CAD drawings, taking you through the process.

Next, choose your range

1 Your choice of **panels** and **gates** is going to depend on your budget and herd.

Sheep one month, cattle the next? You are going to want to stick with our SHD range. Check out our PHD range too. If you're dealing with quiet cattle or horses, the bronco range could also be an affordable option.

2 Choosing the right **crush** is essential; we've got something for everyone.

If you're running breeders through your yards, we recommend choosing one of our vet crushes such as the exceptional **River King**.

3 What, when and how often you are moving stock will dictate which **loading ramp** best suits.

Our top of the range **Load Master** is tough enough to just *keep on loading*, no matter the herd size. Whereas an adjustable ramp offers additional flexibility whether you are transporting in a cattle truck or pulling a box trailer behind.

4 We offer a number of **yard upgrades**, compatible with our entire range, designed to increase efficiency & operator safety.

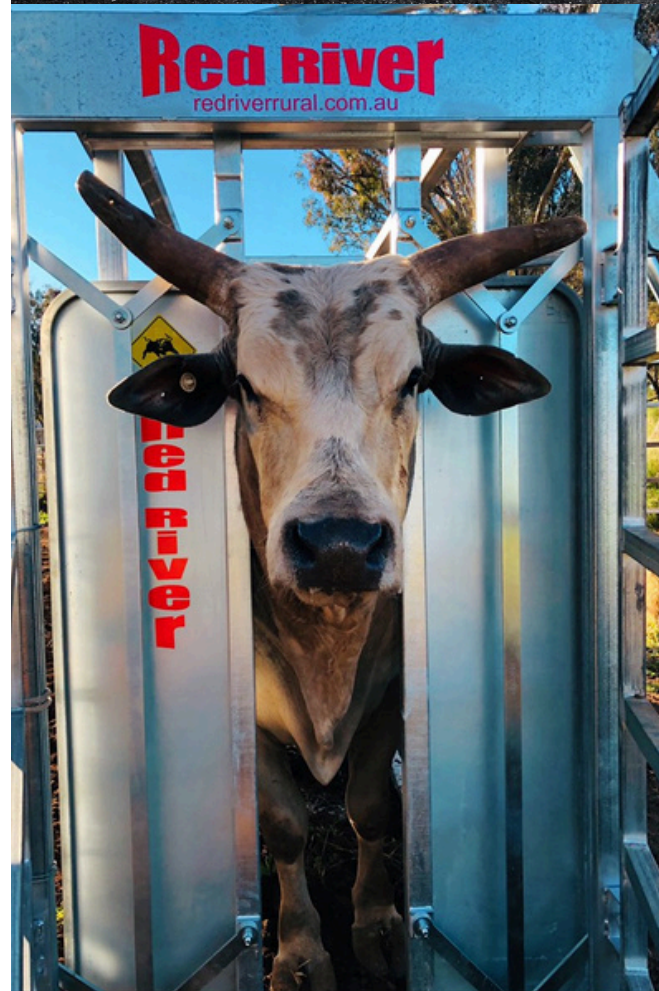

Marking, semen testing or separating your herd; incorporating a G-Force, 5-way draft or one of our other great upgrades will take your new stock yard investment to the next level.

Finally, getting a quote is easy

Give us a call to request a free, no obligation quote, or request one via our website. Our sales team would also be pleased to walk you through our yard exhibit at Head Office before talking you through a quote in person.

FREQUENTLY ASKED QUESTIONS

How can I purchase from Red River?

Individual components and/or complete yards can be purchased directly through our Head Office in [Tamworth](#), our [Shepparton](#) branch, or one of our [authorised dealers](#). Otherwise, reach out on [1300 068 067](tel:1300068067) or sales@redriverrural.com.au

I'm not sure exactly what will work best for our property. Can you help?

Absolutely! Our team are experienced in all aspects of cattle management and would be honoured to provide you with advice on a yard layout suitable to your individual budget, operational needs and farm environment.

Can I customise one of your designs?

Our yards are all designed to be practical and efficient and are tried & tested in a range of Australian agricultural settings. However, our unique lug design makes simple changes (e.g. extra panels, gates etc.) a breeze, and one of our sales team would be happy to work with you for more complex customisations.

Can you build my design?

Yes! Our sales team will work with you to ensure your vision comes to life. Sometimes compromises may need to be made in relation to product constraints and the proposed build environment. At times, due to unforeseen circumstances, the layout of the yard may need to be slightly adjusted during installation. The yard builder will always strive to discuss this with you beforehand.

How do I get a quote?

If you know what you want, you can request a quote directly from our [website](#) otherwise, chat to our sales team on [1300 068 067](tel:1300068067) or sales@redriverrural.com.au

Is financing available?

Yes! Contact us on [1300 068 067](tel:1300068067) or accounts@redriverrural.com.au to discuss your options.

How much deposit is required?

A deposit is not required to place an order.

When will I need to pay?

An invoice will be issued 24 hours prior to installation and must be settled prior to delivery.

So I've made a decision, now what?

Firstly, you will receive a drawing and quote of your proposed yard for review. Our team will then work with you until the price and design are exactly right. Once accepted, your order is placed and logistics will be in touch to discuss your site preparation, our access requirements, and any other delivery & installation considerations.

Are you able to deliver my yard?

Yes! We can arrange delivery to most of NSW, QLD, SA & Victoria. Delivery fees are calculated on an individual basis. One of our sales or logistic team will discuss this with you during the quoting process.

Can you set up my yard?

We sure can! Our delivery fee includes our driver to assist in the setup of your new yard on a suitable site.

Will I need a forklift or tractor?

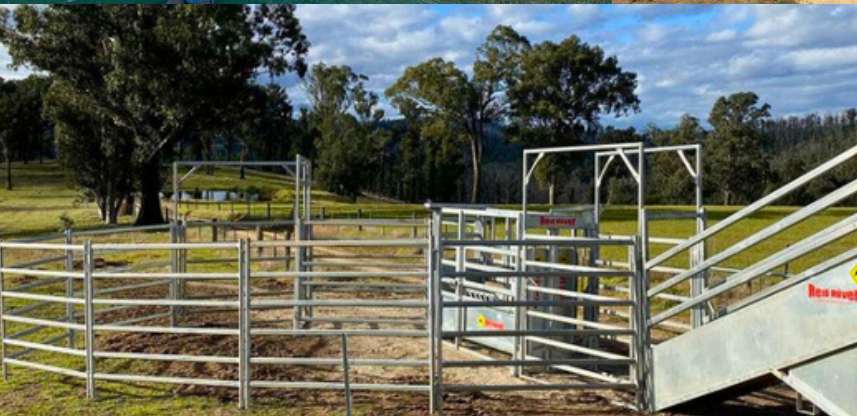

No, our yard builders can bring one if required. However, please inform our logistics team if you *do* have access to a forklift/tractor with fork tynes on your property, as sometimes this may facilitate an earlier delivery date.

How long does it take to receive my yard after ordering?

Time to delivery is dependent on a number of factors (not least the weather!), but we usually aim to have your yard with you within 4-8 weeks. When all components are ready, our logistics manager will liaise with you directly to arrange mutually convenient delivery & installation.

How long does it take to build the yard?

Depending on the size of your yard, and site access, we can have your yard set up in around 2-6 hours, and ready for immediate use.

CLIENT

TESTIMONIAL

"We have been using Red River cattle yards across our properties for 16 years. We use them because of the flexibility in design and also the strength and durability of the yards themselves. Steve and the Red River team are always easy to deal with and ensure deliveries are made on time. We would recommend Red River Rural yards to anyone looking to improve or upgrade their existing yards."

DALE - NSW

CLIENT

TESTIMONIAL

"I recently came across Red River Stock Yard, Not only was I impressed with the design, quality and cost, the sales rep was truly interested in my needs and helped in the final design that suited my requirements."

"After I was regularly updated with delivery dates, the erection team were not only polite they were very efficient and took the time to tell me how to work the system safely and effectively.."
